

## TECHNICAL SPECIFICATIONS

### NETPRO-11S 6 KVA ONLINE UPS

Uninterruptible power supply power 6000 V/A:

- 1) Uninterruptible power supply power = 6000 V/A
- 2) Input voltage range = 176-288 VAC at full load
- 3) Input frequency range = 47.5-63 (Hz)
- 4) Output voltage = 230
- 5) Output rosette = 8 x IEC320-C13
- 6) Battery type = With adjustable valves, lead acid type choked
- 7) Accumulators Quantity x Voltage x amperage = 32 x 12V x 9.0 amp/hr
- 8) Charging time = 4 hours at 90%
- 9) Accumulators duration of work at full load = 10 min.
- 10) Working temperature = 0°C to +40°C
- 11) Noise level from 1 meter = 50 dBA
- 12) Compliance with standards = EN 62040-1, EN 62040-2, EN 62040-3
- 13) Power factor = 0,95
- 14) Display - liquid crystal display
- 15) Communication interfaces = USB port, RS232
- 16) Warranty = 2 years
- 17) Additional functions/features with frequency conversion capability,

AUTOMATIC AND MANUAL BYPASS connection with the possibility of ECO-mode, On-Line technology, compatible software and web browser with remote monitoring function.
